

City of New London
OFFICE OF THE MAYOR

February 16, 2012

Dear Senator Harp, Representative Walker, and committee members,

I am writing in support of H.B. 5014 and specifically the Shore Line East extension. An increase in Shore Line East service into the New London Union Station would be an economic boost to the region. The availability of more Shore Line East trains would make the region more accessible to people across Connecticut and more attractive to residents and businesses. I strongly urge support for Shore Line East extension and appreciate your time considering this important topic.

Sincerely,

Daryl Justin Finizio
